EFOMP
EUROPEAN FEDERATION OF ORGANISATIONS FOR MEDICAL PHYSICS

12th November 2026
Document: 2026/49

Associate Management Office support- call for submissions

To whom it may concern,

European Federation Of Medical Physics (EFOMP) is a Non-Profit organisation representing medical physics and Medical Physicists in Europe. It continues to develop professional standards through education, the work of its committees and officers, collaboration with other bodies and its involvement with EU project work.

EFOMP currently has 37 member organisations representing over 10,000 medical physicists. EFOMP also has 45 company members. EFOMP officers and committee members are volunteers; there are currently no paid positions in EFOMP's structure.

EFOMP is currently registered in the Netherlands and the financial and administrative services are provided by an associate management office support company . The officers of EFOMP are obliged to review our office support after 5 years and wish to invite professional organisations preferably in experience with Medical Physics Organisations to propose and offer their facilities and resources to support EFOMP. EFOMP may also consider private companies if they meet defined requirements.

If you are interested in submitting a proposal, please contact the EFOMP Secretary General on secretary@efomp.org for more details and the specifications and terms & conditions document for the requested services.

Deadline for submissions is set at 31st of January 2027.

Best Regards,

Efi Koutsouveli
President EFOMP

Brenda Byrne
